

Aircraft Weight and Balance Fundamentals

Many aircraft Owner/Operators don't know their empty and loaded weight Center of Gravity. This 1-hour seminar will review regulatory requirements and provide basic knowledge along with examples of accidents. This seminar is beneficial for all aircraft types whether experimental, Light Sport or Type Certified. Come join us for an interesting discussion.

Directions: The seminar is located on the north side of the airport off CR 6 near the ATC tower in the administration building hangar.
